On Friday, September 25, Birchmount staff will be participating in professional learning as part of our Pilot Calendar Day.

Throughout the day, teachers and staff will engage in collaborative professional learning focused on strengthening instructional practices in literacy and numeracy. Staff will work with both school-based and district colleagues to analyze student learning data, identify areas of strength and need, and explore effective teaching practices that support improved student achievement.

This dedicated time for learning, collaboration, and planning helps ensure that our staff continue to refine their practice and provide the best possible learning experiences for all students.

Thank you for your continued support as we work together to help every Birchmount Bear succeed.
